Great Plates Delivered: Home Meals for Seniors

Great Plates Delivered (as of 8/9)	
Meals served as of 8/6	5,947,744
Individuals Served This Week as of 8/6*	40,360
Food Providers Contracted as of 8/6*	709
*Data received from Great Plates Data Portal updated twice per week.	

- Helps seniors and other adults at high risk from COVID-19 to stay home and stay healthy by delivering three nutritious meals a day,
- Provides essential economic stimulus to local businesses struggling to stay afloat during the COVID-19 crisis.

- Restaurants and food providers interested in participating can fill out this form: <https://state-of-california-agency.forms.fm/great-plates-delivered-food-provider-interest-form/forms/7917> (Click the "START" button)
- Due to recent 30-day extension granted by FEMA, the program will now continue through August 9th.
- Food provider meals must meet the following nutritional requirements:
 - Breakfast: low in sodium, no sugary drinks (<24 grams /8 oz. and of fruit juice, must be only 100 percent fruit juice allowed);
 - Lunch and dinner: a piece of fresh fruit or vegetable on each dish, and low in sodium, no sugary drinks (<24 grams /8 oz. and of fruit juice, must be only 100 percent fruit juice allowed)

COVID-19 at a Glance

California's [positivity rate](#) is a key indicator of community spread. As of **8/9** the 7-day average positivity rate is **5.8 %** and the 14-day average positivity rate is **6.0%**. Due to issues with the state's electronic laboratory reporting system, these data represent an underreporting of actual positive cases in one single day.

For skilled nursing facility data, visit: [Skilled Nursing Facilities: COVID-19](#)

As of August 9, local health departments have reported 26,544 confirmed positive cases in health care workers and 137 deaths statewide.

Each week, CDPH updates the number of cases of Multisystem Inflammatory Syndrome in Children (MIS-C) reported in the state. As of August 4, 29 cases of MIS-C have been reported statewide. To protect patient confidentiality in counties with fewer than 11 cases, we are not providing total counts at this time.

*Parents should be aware of the signs and symptoms of MIS-C including fever that does not go away, abdominal pain, vomiting, diarrhea, neck pain, rash, bloodshot eyes or feeling tired. Contact your child's doctor immediately if your child has these symptoms. Early diagnosis and treatment of patients is critical to preventing long-term complications.

The latest data is linked at <https://covid19.ca.gov/> and features hospital data, county maps, cases by county and distributed PPE.

Since July 23, hospitalization numbers reflect a change in reporting requirements that were implemented last week by the U.S. Department of Health and Human Services. The change resulted in historical data from 39 non-reporting facilities not being part of recent updates, resulting in lower numbers. This data will be added back in as soon as it is available.

Racial Demographics – A More Complete Picture

- Health outcomes are affected by forces including structural racism, poverty and the disproportionate prevalence of underlying conditions such as asthma and heart disease among Latinos and Black Californians.
- Overall, for adults 18 and older, Latinos and African Americans are dying at disproportionately higher levels. The proportion of COVID-19 deaths in Latinos is more than 1.5 times their population representation across all adult age categories.
- Latinos, African Americans, Native Hawaiians and Pacific Islanders are dying at disproportionately higher levels. More males are dying from COVID-19 than females, in line with national trends.
 - More information is available at [COVID-19 Race and Ethnicity Data](#).

Nationwide COVID-19 Numbers (reported by CDC from previous day)

- As of **August 10**, there have been **161,842** deaths, **558** new deaths since yesterday.
- **5,023,649** positive cases, **48,690** new cases since yesterday- in 55 jurisdictions (50 states, District of Columbia, Puerto Rico, Guam, Northern Marianas and US Virgin Islands).

The CDC also provides a [weekly summary](#) and interpretation of key indicators that have been adapted to track the COVID-19 pandemic in the United States.

LISTOS California

- The Listos California Emergency Preparedness Campaign is successfully reaching over 1 million vulnerable Californians with the information they need to prepare for natural disasters-and the COVID-19 pandemic.
- All elected officials are invited to serve as an important megaphone for the 5-steps of preparedness. We have prepared a dropbox [here](#) filled with information you can share with your constituents via social media, newsletters and/or visits with your local community. Please review this Table of Contents [here](#) to better understand how to leverage these well-designed materials.
- Please contact our Listos California Co-Chairs, Karen Baker or Justin Knighten should you need any assistance.
 - Justin.Knighten@caloes.ca.gov
 - Karen.Baker@caloes.ca.gov

Contact Tracing

To develop contact tracing capabilities, the State has:

- Developed a data management platform in collaboration with our county partners and has offered the tool free-of-charge to all local public health departments;
- Developed a virtual training academy in partnership with academic partnership, including UCSF and UCLA, to scale our training capabilities across all counties free-of-charge;
- Redirected 3,600 state staff to augment the local contact tracing workforce of over 7,000 staff; and
- Developed a public awareness campaign, California Connected, in partnership with philanthropy to educate the public on the importance of contact tracing.

CALCONNECT DATA SYSTEM

The data management platform (CalCONNECT) went live with basic functionality as a pilot with one local health department on May 13. In the subsequent 10 weeks, 39 additional local health departments (LHD) have been added to CalCONNECT. As a result of not having all LHDs fully on the system yet, the system does not capture data for all contact tracing that is occurring in each jurisdiction or in California.

TRAINING FOR STATE AND LOCAL STAFF

In partnership with UCSF and UCLA, the state implemented the Virtual Training Academy to support the training of state and local staff to become case investigators and contact tracers. More than 7500 state and local staff have participated to date in the State's UC VTA training for contact tracing or case investigation.

LHDs may choose to send their staff through the VTA, or may pursue other options for training their staff. In addition, LHDs had seasoned staff that did not need to go through new training for COVID19 contact tracing.

DEPLOYMENT OF STATE WORKFORCE

At the inception of this program, the state offered to redirect state staff as contact tracers free-of-charge to local health departments. With the surge of new cases, local health departments are now in need of case investigators and so we are adjusting our program to train state staff to help to fill that gap for this more advanced role. To date, we have deployed more than 1300 state staff to 20 local health departments and we continue to deploy more staff each week.

CDPH - County Data Monitoring *as of 8/10

- The state is working closely with Local Health Departments to identify action steps and timelines for addressing issues that impact indicators of concern in COVID-19 transmission and treatment.
- Counties on the [County Monitoring List](#) for three or more consecutive days – currently **38** counties accounting for the majority of the state's population – must [close indoor operations](#) for additional activities.

Recovery Questions

- If local governments have specific questions about COVID-19 recovery please to send them to disasterrecovery@caloes.ca.gov.

Actions Taken by the State and Federal Government

- **August 10, Governor Newsom [Announced](#) \$81.8 Million in Commitments to Support Isolation and Quarantine Efforts in Communities Disproportionately Impacted by COVID-19. A coalition of private and philanthropic entities commit to \$81.8 million to fund services to support quarantine and isolation efforts**
- **August 7,** California Department of Public Health today [released](#) statewide interim guidance for institutions of higher education (IHE).
- **July 31,** Governor Gavin Newsom signed an [executive order](#) addressing extending the deadline for county assessment appeals boards to issue a decision on pending tax assessment appeals filed on or before March 4.
- **July 29,** Governor Gavin Newsom announced a series of actions to better serve workers that have experienced job loss during the COVID-19 pandemic, including the formation of an Employment Development Department (EDD) strike team, and a renewed focus on processing unpaid claims.
- **July 28,** CDPH promulgated regulations expanding data reporting requirements for providers and laboratories. The regulations require providers to continue to collect and report race and ethnicity data and also collect and report a patient's gender identity and sexual orientation, so the state has more information on patients who identify as lesbian, gay, bisexual or transgender (LGBT).

- **July 27**, Governor Newsom [announced](#) actions to slow the spread of COVID-19 in the Central Valley
- **July 24**, Governor Newsom [announced](#) support for workers to isolate and quarantine outside their home, unveiled new actions to increase outreach and education to slow the spread and reduce the risk for COVID-19 at work, at home, and in the community and Announced new resources for employers to support a safe, clean environment for workers and customers
- **July 17**, Governor Newsom lays out Pandemic Plan for Learning and Safe Schools.
- **July 16**, Governor Newsom announced \$600 million in Homekey funds now immediately available for local governments to purchase housing for homeless Californians.
- **July 14**, California Health and Human Services Agency announced [new plans](#) for COVID-19 testing.
- **July 13**, California ordered additional [restrictions](#) to slow transmissions of COVID-19.
- **July 9**, Governor Gavin Newsom announced [more firefighting support](#) amid the COVID-19 pandemic.

Measures are being taken at Department of Motor Vehicles (DMV) to mitigate COVID-19 spread. DMV build a Virtual Field Office of online services, and re-opened some field offices, while instituting new safety protocols for customers and staff. For more information see [COVID-19 Updates](#) at the DMV website.

- **July 2**, Governor Gavin Newsom launched a "[Wear a Mask](#)" Public Awareness Campaign in response to a surge in COVID-19 cases.

California Department of Public Health Director and State Public Health Officer Dr. Sonia Angell issued a [statement](#) warning Californians to avoid gatherings this Fourth of July weekend to help slow the spread of COVID-19 in our communities.

How People Can Protect Themselves:

We are all in this together. We are working rapidly to keep our state healthy. Every person has a role to play. Your actions save lives.

DO:

- Stay home
- Avoid people outside your household
- Wash hands with soap and water for at least 20 seconds
- Wearing a cloth face mask when out in public
- Cover your cough or sneeze
- Frequently clean and disinfect touched objects and surfaces
- Maintain physical distance of six feet whenever outside of the house

DON'T

- Leave the house except for essential activities
- Shake hands
- Touch your face
- Go to the doctor if you are not sick
- Stockpile masks or gloves
- It is also important that anyone experiencing symptoms of COVID-19, call their health care provider first before seeking medical care so that appropriate precautions can be taken.

- Stay away from work, school or other people if you become sick with respiratory symptoms like fever and cough.

Mental Health

- The stress we are all feeling right now triggers the biological stress hormone. Stress shows up in individuals differently.
- Call you doctor or mental health professional if you have concerns.
- 16 hotlines offering emotional support for a variety of situations and other helpful mental health resources available here:
<https://covid19.ca.gov/resources-for-emotional-support-and-well-being/>

About the Tests:

- **There have been 8,998,353 tests conducted in California. This represents an increase of 172,234 over the prior 24-hour reporting period.** These numbers include data from commercial, private and academic labs, including Quest, LabCorp, Kaiser, University of California and Stanford, and the [25 state and county health labs](#) currently testing. You can find a [testing site](#) in your area on the main CA COVID-19 website: covid19.ca.gov.
- The California Department of Public Health released [updated testing guidance on July 14](#) that focuses on testing hospitalized individuals with signs or symptoms of COVID-19 and people being tested as part of the investigation and management of outbreaks, including contact tracing. The testing guidance also prioritizes individuals who have COVID-19 symptoms and individuals without symptoms who fall into high risk categories.
- The California Department of Public Health launched an interactive website to help Californians quickly search [testing sites by location](#) and schedule an appointment. The testing locator website features

community testing locations which are open to Californians who meet current testing guidelines.

Small Business Administration, Disaster Assistance

SBA Disaster Assistance (8/9)	
CA Loans (EIDL) Approved (as of 7/27)	469,484
Dollar Amount of CA Loans (EIDL) Approved (as of 7/27)	\$29,697,072,596
CA Loan Advances (EIDL) Approved (as of 7/15)	809,792
Dollar Amount of CA Loan Advances (EIDL) Approved (as of 7/15)	\$2,666,662,000
Payment Protection Plan (as of 7/31)	608,970
Payment Protection Plan Approved (total) (as of 7/31)	\$68,102,850,783

- [California Small Business Loan Guarantee Program](#) (via IBank) is making available \$50 million in state funding, providing potential capital for individuals who do not qualify for federal funds.
 - Small Businesses located in California with 1-750 employees that have been negatively impacted or experienced disruption by COVID-19 and nonprofits are eligible.
- U.S. Small Business Administration (SBA) has declared all [California counties](#) eligible for the Economic Injury Disasters Loans.
- U.S. Small Business announced that agricultural businesses are now eligible for SBA's Economic Injury Disaster Loan (EIDL) and EIDL Advance programs.

- This SBA declaration makes Economic Injury Disaster Loans available to impacted small businesses, small agricultural cooperatives, small businesses engaged in aquaculture, and private non-profit organizations.
- SBA loans can be approved up to \$2 million but are limited to the economic injury determined by SBA. These loans are intended to assist through the disaster recovery period.
 - In response to the COVID-19 pandemic, small business owners in all U.S. states, Washington D.C., and territories are eligible to apply for an Economic Injury Disaster Loan advance of up to \$10,000. This advance will provide economic relief to businesses that are currently experiencing a temporary loss of revenue. Funds will be made available within three days of a successful application. This loan advance will not have to be repaid.
 - This advance may be available even if your EIDL application was declined or is still pending and will be forgiven. If you wish to apply for the Advance on your EIDL, please visit <https://covid19relief.sba.gov/#/> as soon as possible to fill out a new, streamlined application.
 - In order to qualify you need to submit this new application even if you previously submitted an EIDL application. Applying will not impact the status or slow your existing application.
- U.S. Small Business Administration announced changes to help borrowers still paying back SBA loans from previous disasters. By making this change, deferments through December 31, 2020, will be automatic. Now, borrowers of home and business disaster loans do not have to contact SBA to request deferment.
- Information on these and other programs can be found at: <https://covid19.ca.gov/business-and-employers/>
